Comments:

Plane Creek Mill processed just over 39,300 tonnes of cane for the week, bringing the season total to just over 882,000 tonnes.

Weekly throughput was below budget due to a 12-hour maintenance stop on Tuesday and critical manning shortfalls which led to a 25-hour factory stop from Wednesday afternoon.

Average weekly CCS came in at 16.21 units – a slight decrease of 0.01 of a unit on the previous week.

Bin weights also dipped slightly, to average 3.99 tonnes for the week.

The highest CCS honours for the week were shared between a rake of SRA 26 plant cane from the Koumala productivity area and a rake of SRA 9 plant cane from the Ilbilbie productivity area. Both had a CCS of 18.20 units.

With school holidays still under way, parents and guardians are asked to warn their children of the dangers of playing near cane railway lines.

Families and visitors who are doing road trips over the school holidays are reminded to use their train brain and always give way to cane trains.
