Weekly production figures

Wilmar Sugar
Plane Creek Mill
Week 23, Week ending 7 November 2026

	This week	Season to date
Cane crushed	31,846	1,124,753
Average bin weight	3.81	3.99
CCS	14.25	15.16

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	22.8	14.25	Q183	31.5	14.55
Q138	32	13.87	Q242	2.2	11.70
SRA13	2.2	12.13	Q253	8.9	13.80
Q208	15.9	14.55	SRA9	8.4	14.46

Comments:

Plane Creek Mill processed just over 31,800 tonnes of cane for the week, bringing the season total to about 1.125 million tonnes.

Harvesting resumed on Tuesday, following a week of weather disruptions, however wet field conditions continued to hinder operations with a number of harvesters and haul-outs bogging in the field.

Average weekly CCS came in at 14.25 units – a decrease of 0.20 of a unit on the previous week.

Bin weights dipped slightly on the previous week, to average 3.81 tonnes for the week.

The highest CCS honours for the week were shared between a rake of Q208 fifth ratoon from the Bollingbroke productivity area and a rake of Q240 eighth ratoon cane from the West Hill productivity area. Both had a CCS of 16.10 units.

Subject to weather and factory performance, harvesting operations at Plane Creek are currently expected to finish on Thursday 12 November.

As we enter the final days of the 2026 season, members of the public are reminded to stay vigilant around our cane rail network and always look out for cane trains.
